Date :

Consultative Meeting Notification 91 /2017

**BUYERS & SELLERS MEET FOR BUSINESS INTELLIGENCE AND DATA  
ANALYSIS SOFTWARE ON 22-12-2017**

Meeting held on 22-12-2017 for **BUSINESS INTELLIGENCE AND DATA ANALYSIS SOFTWARE** with sellers and buyers. Following participants participated from the

**Seller's side:**

- M/s.OMNI INFOWORD
- M/s CRG SOLUTION
- M/s TABLEAU
- M/s POLESTAR SOLUTION
- M/s INSPIRA
- M/s OTSI
- M/s ICON GROUPS
- M/s INFORMATION

**In the consultative meeting the following points are suggested by participants:**

**Suggestion of participants for BUSINESS INTELLIGENCE AND DATA ANALYSIS  
SOFTWARE:**

1. After deliberations with the participants, it was decided the following parameter are to be added in the existing TP of **BUSINESS INTELLIGENCE AND DATA ANALYSIS SOFTWARE**

- Master Data Management
- Data Governance
- After Forecasting parameter:
  - Operational Research Capability
  - Statistical Capability
  - Text Analytics
  - Fraud analytics
  - If yes, type of support data connectors. (After Support data connectors parameter)
  - Version Control in place of Conversion tracking / reporting.

2. As per participants suggestion, it was decided the following parameter are to be modified the following parameters in the existing TP :

- Scripting automatic date dimension features **TO** automatic date dimension features

- Scripting intuitive interface custom charting features **TO** intuitive interface custom charting features
- Number of Years upto which Support is available from OEM / Franchise online  
**TO**  
Number of Years upto which Support/ Warranty is available from OEM / Franchise online
- Categorizing **TO** Categorizing/ Hierarchy
- Built-in Data Connectors **TO** Support Data Connectors
- Automatic updates **TO** Product updates
- Ad hoc Query **TO** Ad hoc Query/ Data Query
- Operating Systems supported (Driver) **TO** Operating Systems supported
- Hard Disk Space Required **TO** Minimum Hard Disk Space Required
- Deployment options

VALUE 1:

VALUE 2:

VALUE 3:

**TO**

Deployment options

VALUE 1: In premises

VALUE 2: On cloud

VALUE 3: Both

- Supported Web browsers

VALUE 1:

VALUE 2:

VALUE 3:

**TO**

- Supported Web Browsers

VALUE 1: Internet Explorer

VALUE 2: Google Chrome

VALUE 3: Mozilla Firefox

### 3. Golden parameters for **BUSINESS INTELLIGENCE AND DATA ANALYSIS SOFTWARE**

proposed by the participants are as under:

- Software Domain/ Type
- Name of Software
- Name of the OEM

- OEM Model / Part No.
- Product Id of OEM
- Software Description
- Software Version/Name
- Date of Launch of Version
- Budgeting & Forecasting
- Operational Research Capability
- Statistical Capability
- Text Analytics
- Fraud analytics
- Architecture aware in memory multiple data source support meta data management features
- Number of Years upto which Support is available from OEM / Franchise online
- Support Data Connectors
- If yes, type of support data connectors
- Predictive Analytics
- Single Sign On
- Product updates
- Deployment options
- Installation and Demonstration
- No. of days Training Provided at Site

4. After deliberations with the participants, it was decided the following parameters are to be deleted from the existing TP:

- **Advertising Analytics**
- **Benchmarking**
- **Mobile Analytics**
- **Strategic Planning**
- **Data encryption**
- **Security auditing mobile authoring features**
- **Data Analysis tools**
- **If Yes, List of Data Analysis tools**
- **Audience reporting**
- **Business Analysis**
- **Business Intelligence**
- **Data Querying**
- **Data Synchronization**
- **eCommerce reporting**
- **Event Tracking**
- **Filtered Views**
- **Performance Metrics**
- **Profitability Analysis**
- **Hierarchy live update features**
- **Other Hardware requirements**
- **Supported Protocols**
- **Min Processor bench mark score required**
- **Number of Devices Managed**
- **Maximum user handling capability**
- **Concurrent user handling capability**

- **List of items included in the package**

5. FILTER parameters for **BUSINESS INTELLIGENCE AND DATA ANALYSIS SOFTWARE** proposed by the participants are as under:

- Master data Management
- Data Governance
- Application Security
- Authentication & Security
- Collaboration Analytics
- Customizable Fields
- Dashboard Creation
- Data Storage Management
- Interactive Content
- Interactive Reporting
- Mobile Integration
- Supports OLAP (Online Analytical Processing) functions
- Real Time Analytics
- Social Media Analytics
- Visual Analytics
- Geospatial support features
- Scripting automatic date dimension features
- Scripting intuitive interface custom charting features
- Activity Dashboard
- Access Control
- API
- Ad hoc Analysis
- Ad hoc Query
- Ad hoc Reporting
- Alerts & Intelligence
- Categorizing
- Content Analytics
- Version Control
- Cross-device data
- If yes, type of support data connectors
- Data Extraction
- Data Filtering
- Data Analysis
- Data Visualization
- Data Import/Export
- Drag & Drop Interface
- Data Manipulation
- Graphical Data Presentation
- Metadata Management
- Supports Multiple Data Sources
- Performance Reporting / Monitoring
- Permission Management

- Product Integrations
- Trend Tracking / Problem indication and Analysis
- Widgets
- Operating Systems supported (Driver)
- Supported Devices
- Supported Servers
- Supported Web browsers
- Supported Database
- Valid Licence copy to be provided
- Software supplied through
- Certifications / Benchmarking of Software Products
- Hyper link to Data sheet
- No of Softwares sold
- User Reference no. 1 with email, phone no., where Appliance installed
- User Reference no. 2 with email, phone no., where Appliance installed
- User Reference no. 3 with email, phone no., where Appliance installed

Regards
