Consultative Meeting Notification 4/2017

Buyer-seller Consultative Meeting – Desktop Computer dated
04-12- 2017
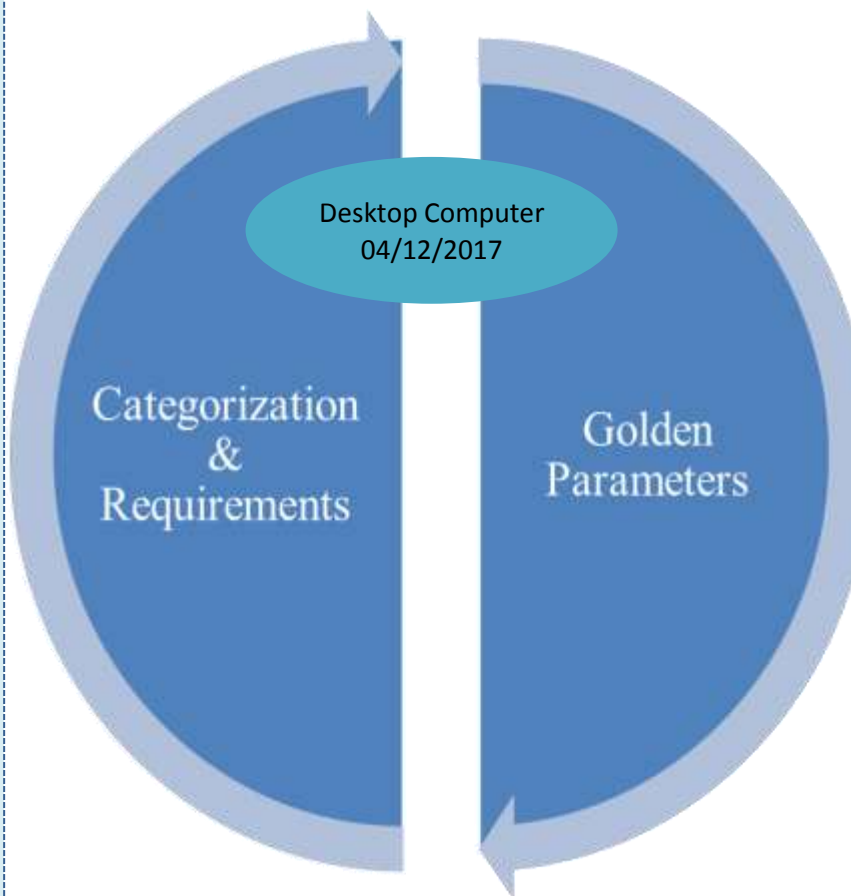

GeM Consultative Meeting – Desktop Computer

Product Categorisation and classification

- Segment :Information Technology Broadcasting and Telecommunications (43000000)
- Family :Computer Equipment and Accessories(43210000)
- Class : Computers (43211500)
- Commodity : Desk Top computers (43211508)

User Requirement will be generally governed by :

1. Type of Compute Machine i.e PC/DT Computers
2. CPU Make & Generation : Latest as per OEM road map
3. CPU Model No: to be populated from OEM data sheet
4. Chipset Series and classification : Latest & Compatible with CPU as per data provided by CPU OEM
5. HDD and RAM Size to be kept optimal as per market
6. Display Size   : Optimal variant
7. Warranty of machine : Standard up to five year

Desktop Computer

Categorization & Requirements

Golden Parameters

- Processor Make
- Processor Generation
- Processor Name
- Chipset
- Graphic Type
- Graphic Memory
- Operating System (Pre-loaded)
- Hard Disk Drive
- RAM Size
- RAM Expandability
- Monitor Size
- Monitor Resolution
- Warranty

Decision taken and agreed upon by the member for standardization / modification of existing product specification (TP) to make it suitable for public contracting & bidding and to populate market place with optimal number of product variant on base model of OEMs.

1. Provisioning of Dash Board for OEM to keep a watch for the genuineness and correctness of model no of products uploaded by the seller of respective OEM brand.

2. M/S Intel and AMD will provide the Road Map for their products so that "New and latest generation" of CPU can be incorporated and "Ënd of Life" products can be removed.

3. Data for Chipset compatibility with the corresponding Processor will also be provided by M/S Intel/AMD to narrow down the LOV in optimal manner and to avoid any mismatch. LOV is to be created brand wise to cut short the long drop down menu and better look of TP platform.

4. 5th Generation CPU decided to be deleted and 6th Generation CPU may be deleted from LOV by FEB 2017.

5. In case of Graphic, values are to be incorporated as 1GB, 2 GB and 4 GB for "Dedicated/discrete" and "NA" for "Integrated" type Graphics.

6. Windows 7 and Windows 8.1 are to be deleted.

7. DDR3 RAM type is decided to be deleted.

8. RAM speed 1600, 1866 1nd 2133 MHz are be deleted.

9. 2 & 4 are to be incorporated in DIMM Slots .

10. "Optical Drive" parameter shall be with 3 values i,e, DVD R/W, DVD ROM and NA.

11. Ültra Small Form Factor" was decided as additional option for "Cabinet".

12. Additional parameter "Wireless Connectivity" to be added with three options i. e. 802.11 ac , Blue tooth 4.0 and NA.

13. PCI to be removed and PCIe x4 to be added

14. DVI D and DVI 1 port to be deleted

15. LOV of 18.5 inch, 19.5 inch and 21.5 inch to be created for sake of standardization of display Size . 1280x1024 resolution to be deleted

16. TCO 5.0 to be removed and TCO 7.0 to be added for monitor certification

17. Attribute speaker to be replaced with internal speaker which will essentially required in model.

18. Minimum efficiency shall have LOV as 85% to avoid ambiguity.

19. Warranty of 1 year may be removed. Product shall have standard warranty of 3 and 5 years.
