Preamble:-

Procurement of goods and services in right quantity, or right quality, at right time, at right price and from right source is a very important function for any State Government and is required for effective implementation of any Government Scheme. Given the fact that the current procurement methods of public institutions are outdated and suffer from lack of adequate transparency and accountability besides being extremely cumbersome and time-consuming, there is a need to usher in structural changes to the entire procurement machinery of the Government. Government eMarketplace set up by Department of Commerce, Government of India is a state-of-the-art public procurement platform that has used technology to remove entry barriers for bonafide sellers and has created a vibrant e-marketplace with a wide range of goods and services. Completely online pre-contract and post-contract management along with digital and time bound payment of GeM, has resulted in significant reduction in prices of goods and services. The

total value of procurement of both Central and State Government organizations being upwards of ₹5 Lakh Crore, GeM has a potential to save more than ₹50,000 Crore per annum to the Government.

The GeM portal will generate a Sanction Order and the Contract Agreement/Supply Order/Purchase Order which will be digitally/e-signed by the Buyer. These documents duly digitally/e-signed by the Buyer will be made available online to the concerned DDO (applicable in PFMS), PAO (applicable in PFMS), Paying Authority (applicable in Payment System of Railways/Defence/Posts/Others

4. The GeM portal will send the Sanction Order details to PFMS/Payment System of Railways/ Defence/Posts/Others (Others mean various Government Bodies including PSUs, Municipalities, Educational Institutions, Autonomous Institution, State Government, etc).
5. On issue of Sanction order and placing the Contract/Supply Order/Purchase Order, the amount required from the relevant Budget Head gets blocked in the PFMS/ Budget Accounting System of Railways/ Defence/Posts/Others.

However, if the consignee does not issue CRAC within 10 days, on 11th day from the date of receipt indicated in PRC, GeM System/Portal would auto generate unsigned CRAC which, backed with digitally/e-signed PRC for the corresponding quantity shall be taken as deemed acceptance for payments in lieu of the requirement of digitally/e-signed CRAC. This will be made available on GeM to the Buyer/ Seller and also the concerned DDO (if applicable) and PAO/Paying Authority. The GeM portal would generate a unique serial number for CRAC relating to concerned DDO (if applicable) & PAO/Paying Authority, so that the payments are made *seriatim*.

This claim for payment shall be made available to the DDO on GeM Portal and the requisite data will also be pushed online in the PFMS. DDO will log into PFMS and generate the Bill against the said claims and forward the same to the PAO/Paying Authority for payment, after deducting any statutory deductions including TDS as applicable. This claim for payment shall be made available to the PAO/Paying Authority on GeM Portal for payment, after deducting any statutory deductions including TDS as applicable.

In case the Buying organisation allows direct online payment through the payment gateway integrated with Bank(s) available on GeM Portal, the concerned PAO/Paying Authority shall log into the GeM Portal to process and advice for release of online payment to the Seller /Supplier through the available payment gateway. However, in case the PAO/Paying Authority operates through its own online Payment System, the requisite data will be pushed online in the Payment System of the Buying organisation. PAO/Paying Authority shall log into the Payment System to process the payment advice for release of online payment to the Seller /Supplier. The Buyer shall also be responsible for issuing TDS certificate.

Design Process Flow:

- i) Gem server will be integrated with associated bankers who are willing to design, develop and deploy this new banking product for collecting funds equivalent to cost of procurement from State Government buyer before placement of formal contract through GeM.
- ii) When buyer decides to go for the procurement, Gem portal will advise the buyer to open an account with GeM associate bank for collection of advance payment. This account is a special type of account opened as per the MoU where buyer will have no right to debit this account. Thus, the buyer will not have any control once payment has been transferred to this account. In this way, chance of non-availability of fund after supply is eliminated. This system will ensure timely payment to supplier.
- iii) After successful e-bidding/RA, State Government buyer has to arrange fund equivalent to cost of the contract and deposit/transfer the same in the GeM State pool account with ID tag of bid/RA number. This pooling account is capable of handling unlimited number of wallet/child account uniquely linked with a particular e-bid/RA. The moment money is received in GeM State pool account, associated banker will trigger a message flag to GeM system indicating receipt of fund equivalent to cost of contract. Once this flag is 'Y' or Yes, the buyer can place the formal contract. Simultaneously e-bid/RA number associated with child account will be updated with the formal contract number for future transaction where banks will debit this particular child account against payment instructions received from buyer through GeM portal.
- iv) After completion of the contract, banker will generate MIS for each child (sub-account) for reconciliation by the respective payment and accounts officer of State Government which has given advance fund for procurement through GeM. Buyer will have access to the system for viewing the debit transaction taking place in his account all the time.
- v) Situation may arise where contract is terminated owing to non-supply or rejection or any other reason. In that case buyer can issue instruction for refund of the money or alternatively he can go for fresh e-bidding/RA against this deposit. In this case, a mechanism will be devised at GeM end and banking end to replace the previous contract ID with the new contract ID.
- vi) Tax Collection at Source (TCS) in the GST regime, and other deductions, if any, will be managed by buyer himself while making payment to buyer. TCS so collected may be transferred to Taxation head on quarterly basis from the account on instruction of buyer by the banker as being done by DGS&D system in case of service tax collection from DGS&D supplier applying for registration with DGS&D.
