

Price Variation Clause- Seller

Overview

- **Welcome! In this Module, we will learn the process of Invoice creation for an order that has a Price Variation Clause (PVC).**
- **PVC is the process of settling claims between Buyer and Seller for variations in the basic price of raw materials from the period of Bidding till the date of delivery.**
- **PVC (Price Variation Clause) is applicable only for BID/RA product orders for the categories which are PVC enabled.**
- **On the Invoice page, Seller will get to view the Unit Price they have quoted at the time of bidding. They can update the Unit Price by -50% to +100% at the time of Invoice generation.**
- **In case the buyer does not want to go with the prices updated by the seller, the buyer can accommodate the difference via PVC deductions.**

Seller's Login

Post login, to apply Price variation clause Seller needs to generate an Invoice , using general flow. To understand the process of Invoice generation creation, user may refer to the training module section of GeM. [Link here.](#)

To apply price variation clause ,seller needs to go the Order details section as shown in the next slide.
